

UiO Gaming Board of Autumn 2024 - Election committee's proposal

The election committee has looked at the candidates and has come up with the following proposal for the UiO Gaming board of autumn 2024 -> spring 2025.

The election committee consists of the following members:

- Bendik (Alpha) Haave
- Andrine (Sigmangli) Salangli
- Leander (Chadmo) Furumo

Board members

Ember Seidel - Deputy Leader / Room manager
(Deputy leader is elected for 2 periods at a time)

Ember has (officially) been the room manager for about half a year. Over that period the room has seen great improvements. Both in terms of cleanliness and decorations but also as the "skaper". Additionally she has taken an active role in the board exceeding all expectations. The election committee has thus decided that she's a natural fit for the role as both deputy leader and room manager.

Thisan Krishnakumar - Treasurer

Thisan has become a face commonly seen in UiO Gaming's many events which in no doubt is a testament to his commitment to our association. In the past year

Thisan has served as a deputy board member, and for his efforts we in the election committee have decided that his commitment is needed as a board member. He has a background in mathematics that we think fits the qualifications of a treasurer.

Johannes Frølich - Officer of internal affairs

Johannes has during the past period shown a great deal of ire and determination as a board member, and the election committee recognizes his efforts. We think Johannes would make for an excellent board member moving forward into this next period and his desire to improve the internal culture of our association makes him an ideal candidate to be the internal affairs officer.

Souhail Ziani - IT / Social Media

Souhail is, relatively speaking, fairly new to the association but has already made his mark as a nice, trustworthy and reliable guy. He has already made several contributions in the IT side of things like translating the website to english and making the (soon to come) infoscreen 🗺️. Souhail also possesses great talent within other fields like photography and graphic design, which will benefit the association. We think that Souhail will continue to make great contributions and be a good addition to the board.

Georgy Fomin - Board game manager

Georgy has been an active driving force behind UiO Gaming's board game events for a long time, and both his enthusiasm and friendliness has made him a good fit for the role as board game manager. He is now back after a brief pause from the board due to exchanging to the US, and the election committee believes in his

ability to bring people together for these events and therefore propose him for this position.

Magnar Korsmo - MTG manager

Magnar has played an active role in the MTG (Magic the gathering) community of UiO Gaming and has shown great interest in joining the board. As a relatively new face to our association we are excited to see what perspectives Magnar brings to the table in the board, and recognize the importance of adding a member from one of the fastest growing sections of UiO Gaming. The election committee therefore also recommends Magnar as head of our MTG efforts.

Deputy members

- Karoline Nyhammer - Smash
- Justas Saunorius - Event Coordinator
- Kristoffer Olsen - IT / Social Media / Events, assistant

Election Committee

- Thomas Abeledo
